WORK EXPERIENCE

- Analytics & BI (SURA Tech)**

DEC 2024 - PRESENT

Responsibilities:

 - Led the analytics and BI strategy to enable commercial and strategic decision-making.
 - Delivered actionable insights through data analysis, forecasting, and KPI monitoring.
 - Managed end-to-end data initiatives (models, dashboards, performance frameworks), ensuring business impact and stakeholder adoption.
 - Drove process and tooling improvements to enhance efficiency and data quality.

Key Achievements:

 - Developed a customer segmentation model for active clients, supporting commercial targeting and retention strategies.
 - Designed and implemented an analytical agent to support business KPI analysis and decision-making.
 - Increased commercial performance visibility through executive and operational dashboard development.
- Assortment Analyst (Grupo Exito)**

JAN 2024 - DEC 2024

Responsibilities:

 - Designed and analyzed clustering, assortment, and merchandising strategies using consumer behavior data and market performance metrics.
 - Proposed regional merchandising adjustments based on decision-tree models, ensuring sales integrity and growth.

Key Achievements:

 - Optimized point-of-sale (POS) sales through consumer and market behavior analysis.
 - Improved assortment and merchandising efficiency by implementing data-driven models to maximize space profitability.
- Regional Sales Coordinator (Grupo Unicomer)**

AGO 2023 - DEC 2023

Responsibilities:

 - Developed financial projections and promotional strategies based on performance analysis and market data.
 - Analyzed KPIs and product performance to identify growth and efficiency opportunities.
 - Optimized inventory management through data-driven supply and replenishment analysis.

Key Achievements:

 - Implemented dynamic dashboards to support effective strategic decision-making.
 - Successfully restructured pricing schemes to optimize margins.
 - Developed accurate sales forecasts using statistical analysis and historical data.
- Forecasting Analyst (Grupo Exito)**

NOV 2021 - MAR 2023

Responsibilities:

 - Designed mathematical and machine learning models to forecast demand using historical data and effective data mining processes.
 - Identified and correlated critical factors impacting forecasts, delivering accurate demand projections to optimize supplier management.
 - Developed dashboards to support strategic decision-making and refined planning models based on market trends.

Key Achievements:

 - Established efficient forecasting methodologies for high-consumption events, successfully adapting them to the non-food retail business.
- Risk Analyst (Grupo Sura)**

JUN 2020 - MAY 2021

- Defined KPIs for the environment quantification model to support risk assessment and strategic analysis.
- Management Trainee (Grupo Bios)**

AGO 2018 - MAR 2020

- Developed dynamic reports to analyze the company's market positioning and support strategic decision-making.
