PROFESSIONAL SUMMARY

Economist and data analyst with experience in customer segmentation, business intelligence, and analytical process automation. Skilled at transforming large datasets into actionable insights that support commercial decision-making and customer value management. Proficient in Python, SQL, and Machine Learning techniques applied to clustering and segmentation. Results-driven, with a focus on operational efficiency, profitability analysis, and support for customer retention and revenue growth strategies.

PROFESSIONAL EXPERIENCE

Economic & Business Intelligence Analyst

Cali Chamber of Commerce | 2025 – Present

- Designed and led the data strategy for the “Economic Districts” project, applying Machine Learning (clustering) and geospatial analysis (ArcGIS) to segment and group corporate clients and optimize resource allocation.
- Coordinated the “Top 500 Companies Ranking,” managing the region’s largest financial dataset to analyze margins, profitability, and sector trends, supporting the prioritization of high-value accounts.
- Developed Python scripts to automate data-cleaning workflows, ensuring 100% data integrity and reducing manual processing time by 40%.
- Built interactive dashboards and storytelling reports for senior management, enabling data-driven decision-making.

Data Strategy & Analytics Assistant

Cali Chamber of Commerce | 2024 – 2025

- Executed ETL (Extract, Transform, Load) processes on public business registries, ensuring quality assurance for critical commercial data.
- Developed and deployed two Python web-scraping bots to extract and enrich data from RUES (Single Business Registry), expanding the organization’s competitive intelligence capabilities.
- Conducted business mobility analysis presented at regional congresses, identifying key drivers of corporate client growth.

Economic Intelligence Intern

Cali Chamber of Commerce | 2024

- Implemented an automated data extraction system (web scraping) to build financial databases from scratch, improving data quality and minimizing human error.

EDUCATION

M.S. in Applied Economics (in progress)

Universidad del Valle | Focus: Econometrics, Data Science, Quantitative Methods

B.S. in Economics

Universidad del Valle | 2019 – 2025 | Focus: Econometrics, Data Science, Quantitative Methods

SKILLS

- Customer segmentation and clustering (Machine Learning)
- Python (Pandas), SQL, R
- Process automation and ETL
- Web scraping (Selenium)
- Data visualization: Power BI, Tableau, Excel
- Geospatial analysis: ArcGIS Pro
- Data storytelling and executive reporting

- Version control (Git), LaTeX, Office 365
- Agile methodologies (Scrum)
- AI integration (Claude, GitHub copilot, Lovable & others)

KEY PROJECTS

- RUES Automation Pipeline (Python), 2024: end-to-end pipeline for large-scale corporate data extraction. (Repository available)
- Conference paper, 15th Latin American Economic Seminar (PRODEM), 2026: "Business Mobility: factors influencing the growth of companies in Cali."

CERTIFICATIONS

- Data storytelling and visualization – The Economist
- ArcGIS Online basics - ArcGIS

LANGUAGES

- Spanish — Native
- English — Advanced

HONORS

- Academic Excellence Award (1st & 7th semesters), Universidad del Valle, 2020 / 2023
