SUMMARY

Data Scientist and Systems Engineer specializing in Generative AI. Proven experience in developing and optimizing data pipelines, building advanced AI chatbots, and leveraging the Google Cloud Platform (GCP) to drive innovation and solve complex business problems.

PROFESSIONAL EXPERIENCE

Cochez y Cia S.A. Panama City, Panama

Data Scientist June 2023 – Present

- **Customer Analysis:** Spearheaded a customer segmentation analysis (RFM) for a leading grocery application client to provide deep insights into customer behavior. Designed and implemented a scalable database using BigQuery, enabling data-driven marketing strategies and improved decision-making.
- **Data Pipelines & Automation:** Engineered and automated end-to-end data pipelines within Google Cloud Platform (GCP), integrating data from diverse sources including SFTP. This initiative streamlined workflows, enhanced data consistency, and reduced operational costs.
- **Data Analysis & Querying:** Authored and optimized complex SQL queries to investigate, process, and manage large-scale datasets within a cloud environment, delivering accurate and actionable insights for key business decisions.
- **Data Visualization & Reporting:** Developed and maintained interactive dashboards in Looker Studio to track and visualize key performance indicators. These reports provided actionable insights on chatbot performance and product sales, enabling data-driven decisions for key stakeholders.
- **AI Chatbot Development:** Designed, developed, and deployed a production-level, AI-driven chatbot using Dialogflow CX and Generative AI. Leveraged agentic frameworks like LangChain and conducted continuous research to implement advanced AI techniques, significantly improving the chatbot's contextual understanding and response precision. Responsible for ongoing monitoring, performance evaluation and visualization.
- **Generative AI Applications:** Implemented multiple Generative AI applications to automate data processing, including the expansion and enrichment of a product catalog. This work improved data quality and prepared structured data for use in other advanced AI solutions.

EDUCATION

Massachusetts Institute of Technology

Applied AI and Data Science Program

Online

December 2025

Universidad Tecnológica de Panamá

Bachelor of Systems and Computer Engineering

Panama

March 2023

- Member of the Chapter of Honor Sigma Lambda with a GPA: 2.50(3.0 scale) / 3.33 (4.0 scale)
- Member of Eurys UTP Group as social media manager and protocol committee.

Colegio San Agustín

Bachelor of Science and Letters

Panama

December 2017

COURSES AND CERTIFICATIONS

Cloud Skill Boost Profile ([work/personal](#)), Credly ([university/personal](#))

- **Courses:**

- **AI Agents in LangGraph** – DeepLearning.AI, (Jul. 2024),
- **Build a Neo4j-backed Chatbot using Python** – Neo4j, (Jul. 2024)
- **Computer Vision Fundamentals with Google Cloud** – Google, (Jul. 2024)
- **Big Data and Machine Learning Fundamentals** – Google, (Jun. 2024)
- **Create Conversational AI Agents with Dialogflow CX** – Google, (Dec. 2023)
- **Generative AI Fundamentals** – Google, (Oct. 2023)
- **LangChain for LLM Application Development** – DeepLearning.AI, (Jul. 2023)
- **JavaScript Essential Training** – LinkedIn Learning, (Mar. 2023)
- **Cloud Foundations** – AWS Academy, Nov. 2022
- **Certifications:**
 - **Professional Machine Learning Engineer Certification** - Google Cloud (Oct 03, 2024 - Oct 03, 2026)
 - **Scrum Foundation Professional Certificate SFPC v2020** – CertiProf, (Apr. 2023)
 - **Samsung Innovation Campus** – Samsung, (Feb. 2023)
 - **Python Essentials** – Cisco Networking Academy, (Mar. 2022)
 - **Networking Essentials** – Cisco Networking Academy, (Jul. 2022)
 - **Linux Essentials** – Cisco Networking Academy, (Jul. 2021)

SKILLS & INTERESTS

Programming Languages:

- Advanced: Python
- Intermediate: SQL | Java | C
- Basic: Javascript | HTML | CSS

Other Tools:

- Intermediate: Google Cloud Platform (GCP), BigQuery, Dialogflow CX, LangChain, Git, Jira, MS Office & G-Suite
- Basic: Looker Studio, Tableau

Languages: English (Intermediate B2) | Spanish (Native)

Interests:

- **AI for Process Automation:** Focusing on leveraging Generative AI to streamline internal operations and enhance business efficiency.
- **Data-Centric AI:** Passionate about improving data quality and integrity as the foundational layer for powerful and reliable AI systems.
- **Applied AI Research:** Continuously prototyping and implementing emerging AI frameworks and techniques to solve practical challenges.
- **Learning:** Committed to lifelong learning, with a focus on acquiring new skills and knowledge in the tech industry
